Please cut off top section and return with your donation.

Please make any necessary address or phone number corrections above.

Dear Valued Alum,

Your alma mater needs your help. The floor in the high school gym, which was installed when the building was new in 1950, is in need of replacement. The floor has been sanded down to the point that the nails that hold the floor down are in danger of being exposed. This is not an item that constitutes an emergency situation, but something needs to be done soon. The school has approached the alumni association and asked for our assistance in fundraising for this project.

There has been a lot of speculation about the cost of this project, and there is one major unknown. If the sub-floor would happen to be in good condition, the cost would be significantly lower than if it needs to be replaced along with the gym floor. The problem is, the condition of the sub-floor will not be known until the gym floor is removed. The cost of this project is estimated to be \$40,000 on the low end and \$90,000 on the high end.

If the majority of the funding for this project is provided by the alumni of VHS, The Victoria Alumni Association Logo would be placed on both the north and south sides of the court, as seen above. If significant donations are received before the end of 2015, the new floor could be installed during spring break 2016.

However, donations will be accepted until the project is completed.

The Victoria Alumni Association Board of Directors considers this to be an important upgrade to VHS. Please consider donating whatever you can to replace the gym floor at your alma mater. Detach the upper portion of this letter, and enclose it along with your donation in the provided envelope and mail to Victoria Alumni Association, PO Box 382, Victoria KS 67671.

Sincerely,  
VAA Board of Directors
